## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please change the title to, --Bit-Driving Apparatus--.

#### ***Allowable Subject Matter***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: claim 3 and its dependent are allowed for the particular structure of the connector, which is not disclosed nor hinted by prior art. Connector, restraint and lock in addition to the other limitations as recited in claim 1 places the rest of the claims in condition for allowance, since although prior art, e.g., Ho (US 6393949 B1), discloses ratcheting tools including a connector, a restrainer (32) and a lock (33), it does not disclose or hint a bit receiving element with a space having internal wall for receiving the periphery of the hollow shaft and a connector for connecting the internal wall of the receiver with the periphery of the shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
